

SPEED SCRUB® 1701

Compact and aggressive auto-scrubber

- 
- Improve productivity with patented SpeedLock™ system for easy brush and pad changes
 - Clean hard to reach areas easily with the off-aisle power wand
 - Save time and money with the optional ES® (Extended Scrubbing) recycling kit

Built to be tough.
Made to be easy.

The smart choice for the highest productivity in tight spaces.

Quietly power out and recover embedded dirt

At a low 69.5 dBA, clean high-soil areas with up to 90 lb / 41 kg of aggressive scrubbing down pressure and powerful 45 in / 1,140 mm waterlift.

Increase productivity

Maximize cleaning time with easy-to-use controls and long running batteries. Clean up to 17,000 ft² / 1,970 m² per hour with the two 130 amp hour, 12 V batteries that run up to 3 hours in one charge.

Easy to maintain

Easily empty and fill the 8 gal / 29 L solution and recovery tanks at the same time. Plus, with durable polyethylene construction and an industry-best 10/3/3 warranty, you're always covered!

Engineered by Tennant Company, the Speed Scrub 1701 scrubber is manufactured by the best – making it a reliable choice for your no-nonsense cleaning needs.
