*This document is intended for Internal Use Only. This document can be used as a guide as to which TENNANT COMPANY products may carry the UL/ETL Standard labels. A machine that has a UL/ETL procedure report on file may not be labelable if it is not built exactly to the procedure report. Any changes to UL/ETL listed components or addition of non-listed components may void the standard. Any questions regarding current or new product labeling should be addressed to the corresponding product line Product Manager.
