(Installation Time: 15 minutes)

TOOLS REQUIRED: Philips Screwdriver, Power drill with 1-3/16 Boring Bit.

FOR SAFETY: Before installing kit, unplug cord from wall outlet.

KIT CONTENTS

Part No.	Description	Qty
610732	Clip, Brush Handle	1
610731	Handle, brush	1

1. Replace brush handle with new handle.
2. Remove old brush handle clip from machine, save screws.
3. Using a 1-3/16" boring bit, ream out brush handle hole at bottom of machine handle as shown. Be careful not to cut beyond first layer of plastic.
4. Install new brush handle clip.
