

What are Orbio Customers Saying?

Orbio customers worldwide are praising the benefits of switching to Orbio On-Site Generation (OSG).

"It left no residue on stainless steel production equipment, produced a better shine, reduced tire marks on distribution floor surfaces, improved floor traction, and reduced cleaning costs."

"In the past, we used a stainless steel polish with oil in it that sometimes left a film which caused rapid re-soiling. The Orbio solution cleans stainless and removes fingerprints as well as or better than what we previously used, without the film."

Daminga Lash
Housekeeping Manager
Mall of America

"We were fully prepared to replace the carpeting in one of our communities. But after we cleaned it for the first time using MultiSurface *Cleaner* we were so impressed by the results we decided we didn't need to replace it, saving us several thousand dollars."

Jack Mayse
National Director of Environmental Services
Kisco Senior Living

“Safety is the number one concern for us and our staff, and the employees on the campus have significantly reduced exposure to potentially harsh cleaning chemicals.”

Jared Agan
National Director of Standardization
Eurest Services

“I look for a consistently clean building and Orbio® MultiSurface *Cleaner* is consistent. There’s no need to mix it, you can’t over- or under-use it like chemical cleaners.”

Tom Dillulio
Director of Building Services
Global Spectrum

“The os3 solutions have no odors so they’re great for employees, students and staff who have asthma. It works so well, 30 teachers keep spray bottles with os3 solutions in their classrooms for quick clean ups.”

Dave Hardman
Superintendent of Buildings and Grounds
Cuba-Rushford Central School District

“Our cleaning staff benefits from scent-free Orbio® solutions. No odor and the clean is better than covering a chemical odor with a scent.”
