Re: Tennant Insta-Click Magnetic Attachment System

Dear Customer:

We received your inquiry regarding the magnetic field strength of our Insta-Click Magnetic Brushes and Pad Drivers. Our testing indicated the approximate magnetic field strength levels shown here:

- 0.06135 Gauss at a distance of 2 feet.
- 0.01010 Gauss at a distance of 4 feet.
- 0.00336 Gauss at a distance of 7 feet.
- 0.00100 Gauss at a distance of 10 feet.
- 0.00036 Gauss at a distance of 15 feet.

Due to the many different brands and types of devices that may be impacted by magnetic fields, we cannot make recommendations specific to a given device. However, the above information may be used in discussions with appropriate medical professionals if you have any concerns regarding the handling of these magnetic materials.

For reference, the magnetic field strength of the earth at its surface is in the 0.25-0.60 Gauss range.

If you have any questions, please feel free to contact Tennant at 763-540-1200.

Sincerely,

A handwritten signature in black ink that reads "David M. Meyers". The signature is fluid and cursive, with the first name "David" being the most prominent.
