REDUCE COSTS TO CLEAN, increase productivity and simplify operator training with the T500's suite of innovative technologies, such as ec-H2O NanoClean™** and IRIS® Fleet Manager.

UPDATED AND ERGONOMIC CONTROLS
Easily and ergonomically adjust speed control and propel direction, and change the amount of water flow with a touch of a button. Deliver predictable cleaning results with operator lock-out, on-demand tutorial videos and customisable zone settings, which take the guesswork out of cleaning.

SMART-FILL™ AUTOMATIC BATTERY WATERING

Maximise battery productivity with the exclusive patent-pending Smart-Fill™ technology. Eliminate the need for operators to check, open or fill batteries with an on-board, virtually worry-free battery watering system.

REDESIGNED SQUEEGEE

Reduce the risk of slips and falls with a redesigned squeegee that improves water pick-up and allows for easier installation of squeegee blades. Features an integrated P-trap that prevents water from dripping on the floor after cleaning.

* Run-time based on 210AH optional battery dual-disk head, ec-H2O off, low down pressure and Quiet-Mode™ on (T500 only).

** ec-H2O NanoClean™ technology is not suitable for all soils, including heavy concentrations of fats and oils. Depending on the type of soil, conventional chemical cleaners may be required.
