

FREQUENTLY ASKED QUESTIONS

WaterShield™ Sidebrush Dust Control Custom Solution

1	Q:	How can I order WaterShield dust control for the S30 with SweepMax Plus?
	A:	Please order this custom solution as you would any custom solution. Part number and price are available in the Existing Custom Solutions spreadsheet, located on MyTennant here: Under Internal Sales Tools, on the Direct Channel page. If you have questions, contact Abby.Liubakka@tennantco.com or call 763-540-1302
2	Q:	Can WaterShield dust control be retrofitted on existing S30 with SweepMax Plus models?
	A:	Yes. A field kit is available with part number: 322480 (single) 322481 (dual).
3	Q:	Can WaterShield dust control be retrofitted on older S30 with SweepSmart models?
	A:	No. This not possible on SweepSmart models
4	Q:	Is WaterShield available on other Tennant Sweepers?
	A:	No. It is currently available on S30 with SweepMax Plus
5	Q:	Can I get WaterShield dust control for dual side-brush configuration?
	A:	Yes. The unit will have 2 spray nozzles on each side-brush. But there will be individual water shut-off valves for each water line for ease of use and customizing to the application.
6	Q:	Is WaterShield available on S30 X4 4-Wheel?
	A:	It is not recommended to be used on the S30 X4 4-Wheel due to the reduced gradeability of the X4, and the added weight from the system, including water weight.
