

CREATING A CLEANER, SAFER, HEALTHIER WORLD.

EQUIPMENT

S3

MANUAL WALK-BEHIND SWEEPER

- Experience maximum productivity and debris pick-up with TwinMax™ sweeping technology
- Rely on quality construction with durable components that have been field-proven in commercial applications
- Clean under objects and in hard-to-reach areas with low profile design and dual side brushes for extended reach and consistent edge sweeping

SWEEP SMARTER, NOT HARDER WITH THE TENNANT S-SERIES SWEEPERS.

EXPERIENCE MAXIMUM PRODUCTIVITY

Dual side brushes increase the sweeping path to 870 mm, and a large 50 L hopper saves you trips to the dumpster, which gives you more time for cleaning.

VERSATILE ANYTIME, ANYWHERE CLEANING

The S3's flexible design is well suited for indoor and outdoor cleaning. Manual operation makes it the perfect option for noise-sensitive environments.

RELY ON QUALITY CONSTRUCTION AND PROVEN COMPONENTS

Major components field-proven in commercial applications. Wrapped front bumper design helps prevent high-impact damage to body and side brushes.

SMART, INTUITIVE DESIGN

Increase productivity with smart, no-tool side brush adjustments and easy-to-use operation for less time training and more time cleaning. The sweeper's contoured handle is padded and ergonomically designed for optimal operator comfort.

INSIDE THE S3

- A** Ergonomically designed handle, contoured and padded for operator comfort.
- B** No-tool, fully adjustable dual side brushes clean corners and edges easily without changing directions. Increased cleaning path coverage increases productivity and can be adjusted to your floor surface for optimal cleaning.
- C** Genuine brushes are designed to fit your machine and deliver optimal cleaning performance. Chevron bristle pattern and TwinMax technology work together to pick up more debris in a single pass.

- D** TwinMax sweeping technology combines overthrow and direct sweeping principles to pick up a greater variety of debris with one machine.
- E** Large 50 L hopper reduces empties and is easy to remove, simplifying the cleaning process and increasing operator productivity.

TWINMAX™ SWEEPING TECHNOLOGY

Equipped with Tennant's TwinMax sweeping technology, the S3 cleans your floors in a single pass. The twin, counter-rotating brushes combine overthrow and direct sweeping principles to capture large and small debris with one machine.

TwinMax technology is designed for sweeping multiple surfaces in both indoor and outdoor environments, giving you maximum versatility for anytime, anywhere cleaning.

GENUINE TENNANT PARTS, SUPPLIES AND SERVICE

Tennant Service Offering

- Maximise safety, productivity and uptime
- Control and protect your investment and lower your total cost of ownership
